Message from the School Correspondent

We know that one of the most important decisions that a parent makes on behalf of their child is the decision about which school to send them to. There are few things which are likely to have more impact on a young person's future than the quality of the school they attend. We work hard to ensure that everyone who sends their child to S.S.CITIZEN SCHOOL is happy with that choice. It is our belief that every child deserves the very best start in life and we make it our purpose to provide just that to all the children who enter our school. We provide the best possible teaching and curriculum;

Principal's Message

Mr.K.Bhaskar

(M.A., B.Ed.,)

I have been given an opportunity by the Management, to serve as a Principal in this Prestigious Institution and I am happy that, I work in S.S. Citizen School. I have been monitoring our School's immense growth for more than six year and I am proud of my presence here. The establishment of this school was with the vision of providing good education to the underprivileged who have no access to quality education. Where stalking good marks is the trend at Educational Institutions, where students are deprived of everything. We, at SSCS, focus on holistic development of the Students. We provide the opportunity to our students to be unique and different. We try to foster and hone the skills in students.

We encourage our students to be critical and analytical of everything that they come across and put their views in the public domain. We ensure that our students should be perspective on important aspects of life and studies. We inculcate the need to be imaginative which leads to invention.

We want our students to face society with courage and determination. We also guide them by infusing moral values into them. In the lines of Nelson Mandela, "Education is the most powerful weapon which you can use to change the world".

Every student has an innate talent that needs to be triggered. All our teachers have been made accountable to contribute in this regard. I urge the Management, Teachers, Students, and Parents to cooperate with me in this endeavour and work for the upliftment of the school and the students.
