

SCOUTS & GUIDES FIRST AID PROGRAMS

Our school organized a Scouts and Guides first aid program on June 10th, 2025, to get into the spirit of the Scouts and Guides movement.

A Scout and Guide first aid camp offers training in essential first aid skills, complemented by other scouting activities. Participants learn how to handle injuries and illnesses, practice techniques like CPR and bandaging, and develop an understanding of basic medical procedures within a camping environment.

These camps also emphasize teamwork, leadership, and practical skills like knot tying, tent pitching, and outdoor safety.

Scouts and Guides have a strong emphasis on first aid as a core skill, integrated into their programs through dedicated training, camps, and merit badge requirements to equip students with the ability to respond effectively to injuries and emergencies.

These programs often involve theoretical instruction and practical sessions covering various aspects of first aid, from bandaging and wound care to managing common emergencies like bleeding, burns, and shock

SCOUTS & GUIDES CYCLING EVENT ON 22ND JUNE 2025

Celebrating the Spirit of Adventure and Unity!
Our Scouts and Guides had an amazing time exploring farms on two wheels!. The scenic route, fresh air, and great company made for an unforgettable experience.

Purpose:
To gain the Cyclist Proficiency Badge. It is a great way to recognize cyclists' skills and knowledge.

Scout and Guide skills:
Earn badges related to cycling and agriculture, sustainability, or outdoor skills. Develop skills in observation, recording, and reporting.

The farm visit can be a fun and enriching experience for Scouts and Guides, teaching them valuable skills and promoting a deeper connection with nature.

A big CONGRATULATIONS to each one of you who enthusiastically participated in today's Cycling Event! Your energy, discipline, and commitment truly reflected the spirit of Scouts and Guides — strong in will, bold in action, and united in purpose.

VEGETABLE DAY CELEBRATION IN JUNE 2025

A "Vegetable Day" celebration in our school, grades 4 and 8. We aim to educate children about the nutritional value and importance of vegetables in a fun and engaging way. This usually involves activities like making vegetable salads, decorating classrooms with vegetable-themed displays, and learning about the different types of vegetables and their health benefits. Serving healthy snacks like green salads or other vegetable-based treats can be part of the celebration. Overall, the goal is to make learning about vegetables enjoyable and memorable for young children, encouraging them to embrace a healthy lifestyle.

WEEKLY TEACHER'S SUCCESS STORY

Weekly, thrice our school conducts a program is teachers' success stories. A teacher's success story often revolves around the positive impact they have on their students' lives, fostering learning, growth, and inspiration, as exemplified by individuals

Key elements of a teacher's success story often include:

Student Transformation: Witnessing students grasp complex concepts, develop new perspectives, and excel academically or personally is a primary measure of success.

Overcoming Challenges: Teachers who work in resource-limited environments or with diverse student needs often find success in innovative and learner-centered approaches that empower all students.

Creating a Positive Learning Environment: Successful teachers are often described as those who are approachable, supportive, and create a safe space for students to learn and grow, fostering confidence and a love for learning.

PLASTIC WASTE MANAGEMENT AWARENESS:- ECO-FRIENDLY DUST BIN MODEL

House-wise Eco-Friendly Dust Bin Model - Environment-Friendly School Project.

Students can create a "no plastic" dustbin box using readily available and eco-friendly materials like cardboard and paper cups, often incorporating recycled elements for a more sustainable approach to waste management.

Reinforce and Decorate: Use colored paper, stickers, or drawings to label the dustbin and make it visually appealing, reinforcing its "no plastic" purpose.

WORLD ENVIRONMENT DAY IS ON 5 JUNE 2025.

On 06 June 2025: The United Nations Day for encouraging worldwide awareness and action to protect our environment is observed as World Environment Day on June 5.

Their innocent words and stage presence won the hearts of teachers. The competition proved to be a great learning experience for the students and gave them a platform to explore their hidden talents.

We conducted a fancy dress for the students of KG. A fancy dress competition not only blends learning with fun but also develops confidence in students by allowing them to speak in front of their classmates. They were dressed as organic farmers, plants, trees, etc., to name a few. Children also participated with a lot of enthusiasm and displayed their confidence while speaking.

The day was filled with vibrant performances by the students, showcasing their skills in dance, music, drama, and more. The day was filled with vibrant performances by the students, showcasing their skills in dance, music, drama, and more. The play and dance were the highlights of the day.

INTERNATIONAL YOGA DAY WORKSHOP ON JUNE 22, 2025

Date: 22 June: Online yoga offers the advantage of being accessible from home, allowing students to practice at their own place and convenience. Students often celebrate International Day of Yoga by performing yoga online, engaging in activities such as live yoga sessions, demonstrations of asanas and pranayama, and creating yoga-themed art. This online participation allows them to learn about the benefits of yoga for physical and mental well-being, manage stress, and connect with fellow students globally.

NEWSPAPER READING IS AN ACADEMIC ACTIVITY IN OUR SCHOOLS.

S.S.CITIZEN School set to include newspaper reading as an academic activity in our schools. In the daily morning assembly, there will be a scheduled time for newspaper reading before classes start. We promote reading habits among students, and 'Newspaper Reading' will be added as part of academic activities.

Reading newspapers is not just about absorbing information; it's about engaging with it critically. Articles and editorial content often present various arguments, analyses, and perspectives on a single issue. Encouraging school kids to question, evaluate evidence, and form their own opinions fosters critical thinking skills. This ability to analyse information critically is a fundamental skill that will serve them well in academic pursuits and throughout their lives.

MORE AND LESS CONCEPT ACTIVITIES FOR KG KIDS

The more and less concept can be anything from comparing two numbers, the age of two people, to the weight of two things or the height of two objects. Each activity will help children practise at least one of the skills. It is important for kids to understand how to use and represent more and less. The incredible thinking skills that young children have. Through this activity, your toddler will compare objects and ask questions to help understand their differences in quantity.
